

# We're Going to Israel!

Every month this year, the students in the Grade 2/3 class and the Grade 3 class are visiting Israel via Videoconference! Videoconferencing is the ability to simultaneously interact via video **AND** audio transmissions...**in real time!** This is a **great** experience for all of the students involved! Students are learning about a different culture while interacting with others from Israel, which is teaching the importance of **GLOBAL CITIZENSHIP!**

Students are able to see, hear and speak with the presenter from Israel. They can also see themselves, with the picture-in-picture feature.
